# Intensive Interaction

At MacIntyre, we believe that everyone has the potential to learn and we know that the people we support communicate in many different ways. One approach that we use is Intensive Interaction.

Intensive Interaction is an approach to interacting with and teaching early communication and interaction skills to people who do not find it easy communicating or being social.

MacIntyre is committed to using Intensive Interaction to support people who find communication more difficult, by learning the Fundamentals of Communication. Staff are trained and monitored in the Principles of Intensive Interaction to attain competent practitioner standard.
