

# Improving Adult Care Together (IMPACT)

## Networks

## Invitation to be a Network member

**IMPACT-** a new UK centre that wants to make adult social care services better for people who use services in England, Northern Ireland, Scotland and Wales.

We would like to invite you to be part of an exciting new project.

IMPACT Networks will bring people together to talk and share experience on a particular topic.

You are invited to be part of your local Network that wants to **help people with learning disabilities/ autism come out of long-stay hospital into the community.**

If you would like to take part, over a period of **6 months**, you'll meet **4 times** with other people from your local area who want to improve adult social care.

At the same time, there will be **other Local Networks** in England, Northern Ireland, Scotland and Wales, all focused on the same issue

Everyone who takes part will have their voice heard and influence change

We want the Networks to learn from each other to produce **action plans** to make change happen at the local level.

Resources are available to help everyone take part, including a **payment of £75 per meeting** and support to attend (like for the costs of a **personal assistant** or **replacement care**).

If you would like to take part in your Local Network or have any further questions, please contact [a.cagney@sheffield.ac.uk](mailto:a.cagney@sheffield.ac.uk)
